Independent Auditor's Report

UNMODIFIED OPINION ON BASIC FINANCIAL STATEMENTS ACCOMPANIED BY REQUIRED SUPPLEMENTARY INFORMATION AND OTHER INFORMATION

Board of Trustees Karnes City Independent School District P.O. Box 38 Karnes City, Texas 78118

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for Karnes City Independent School District (the "District") as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Karnes City Independent School District as of August 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with account principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedule for the General Fund, Schedule of District's Proportionate Share of the Net Pension Liability (TRS), Schedule of District Pension Contributions to TRS, Schedule of District's Proportionate Share of the Net OPEB Liability (TRS) and Schedule of District OPEB Contributions to TRS as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedure to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements, the TEA required schedules and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements, the TEA required schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements, the TEA required schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole. The combining and individual nonmajor fund financial statements, the TEA required schedules and the schedule of expenditures of federal awards have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, I do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my report dated February 10, 2020, on my consideration of the District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of Karnes City Independent School District, discuss and analyze the District's financial performance for the fiscal year ended August 31, 2019. Please read it in conjunction with the independent auditor's report on page 2 and the District's Basic Financial Statements which begin on page 10.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 10 - 11). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 12) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements (starting on page 17) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 5. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position (the difference between assets and liabilities) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we divide the District into one activity:

Governmental activities - All of the District's basic services are reported here, including the instruction, counseling, cocurricular activities, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these services.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 12 and provide detailed information about the most significant funds - not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the No Child Left Behind Act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's one type of fund - governmental - uses the following accounting approach:

Governmental funds - All of the District's basic services are reported in governmental funds. These use the modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position on page 16. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following analyses of comparative balances and changes therein is inclusive of the current year's and prior year's operations. Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental and business-type activities.

Total net position of the District's governmental activities increased from \$68,818,372 to \$76,301,347. Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - increased from \$37,117,921 to \$43,073,804. Current and other assets increased by \$1.5 million due to cash offset by reductions in state receivables. Capital assets decreased by \$430,000 due to current year depreciation expense in excess of asset additions. Long-term liabilities decreased by nearly \$2 million due to long-term debt retired by \$4.9 million offset by increases in net pension (NPL) and other post-employment (OPEB) liabilities by \$2.9 million. Other liabilities decreased by \$1.9 million due to prior year recapture cost liabilities. Deferred resource outflows and inflows related to NPL and OPEB liabilities changed by \$2.1 million and (\$0.4) million, respectively.

Changes in revenues and expenses for the year are not comparable to prior year due to the overall effects of GASB 68 and 75 related to NPL and OPEB on current year and prior year activity. GASB 68 and 75 effects on current year revenue relative to last year were higher by approximately \$2.5 million. GASB 68 and 75 effects on current year expenses relative to last year were higher by approximately \$4.6 million

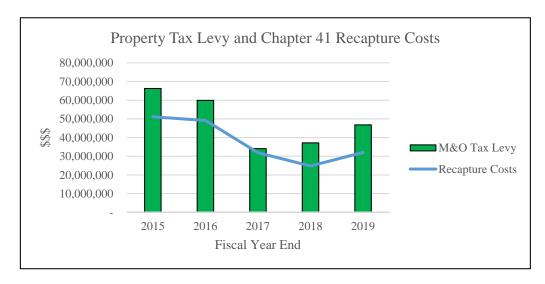

Excluding the effects of GASB 68 and 75 on revenues, total revenues increased by \$8.9 million for the year. Property tax revenues increased \$10.5 million due to a 25% increase in valuations for the year. Other revenue decreased \$2 million due to reductions in oil and gas royalties and estimated fair value adjustment on oil and gas reserves.

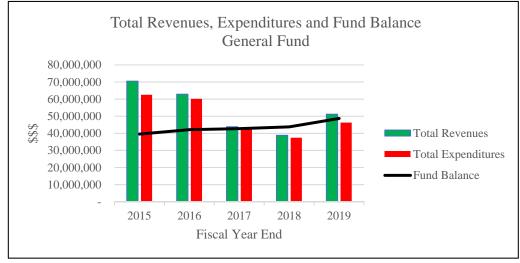

Excluding the effects on of GASB 68 and 75 on expenses, total expenses increased by \$9.4 million for the year. Most significantly, contracted instructional services between schools increased \$7.3 million due to revenue recapture related to increased property tax valuations. Most other functional expense category increases were due to higher payroll costs by \$1.3 million and depreciation expense by \$1.1 million.

The following charts depict trend information for the past five years.

THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds (as presented in the balance sheet on page 12) reported a combined fund balance of \$50,384,571, an increase of \$4,647,382 in the District's Governmental Funds from last year's fund balance of \$45,737,189. The primary reasons for the net increase are similar to the narrative related to the tables above. The major exceptions are depreciation expense which is not charged to the governmental funds and the net effect relative to GASB 68 whose impact is only at the government-wide level financial statements. The specific variances in the changes in fund balance versus the change in net position are detailed out on Exhibit C-4 on the accompanying general purpose financial statements.

The Board of Trustees made two budget amendments for the year. The most significant amendment was for increased revenue recapture costs due to increased property valuations.

The District's General Fund balance of \$48,678,451 reported on pages 14 and 42 differs from the General Fund's budgetary fund balance of \$43,753,377 reported in the budgetary comparison schedule on page 42. The primary variances are due to revenues from property taxes being significantly higher than budgeted and revenue recapture costs being less than budgeted.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2019, the District had \$62,519,958 invested in a broad range of capital assets including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. Following were asset additions for the year.

Continuing construction on new facilities	\$ 1,225,883
Band instruments	27,707
Other equipment	27,637
School bus and other vehicle	127,985
Total asset additions	\$ 1,409,212

Debt

The District had seven long-term debt instruments outstanding at year-end in the form of bonds payable. Following is a summary of outstanding debt balances:

	2019		2018
Unlimited tax bonds, series 2011	\$	300,000	\$ 1,825,000
Unlimited tax bonds, series 2014		750,000	1,485,000
Unlimited tax bonds, series 2015		1,005,000	1,980,000
Unlimited tax bonds, series 2016		875,000	1,725,000
Unlimited tax refunding bonds, series 2017		7,790,070	7,790,623
Unlimited tax bonds, series 2017		684,000	684,000
Unlimited tax refunding bonds, series 2018		9,815,000	9,815,000
Total Outstanding Bonds Payable	\$	21,216,070	\$ 25,304,623

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District should continue to maintain its financial health. A budget adopted for 2019-20 reflected tax rates at \$0.97 for maintenance and operations and \$0.1268 for debt service. Taxable valuations have increased from the past year by approximately 35% due to oil and gas valuations. General fund revenues and expenditures were budgeted at approximately \$63.3 million for a projected break-even year. Therefore, the District expects that its fund balance will be remain at approximately \$48.7 million at August 31, 2020.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the District's business office at: Karnes City Independent School District, P.O. Box 38, Karnes City, Texas 78118.

KARNES CITY INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION AUGUST 31, 2019

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$ 50,384,571
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$61,110,746 and the accumulated depreciation was (\$7,035,115). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.	28,697,900
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the capital outlays and debt principal payments is to increase net position.	5,515,317
3 Included in the items related to debt is the recognition of the District' proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount of \$2,552,084, a deferred resource inflow in the amount of \$460,477, and a net pension liability in the amount of \$4,958,226. This resulted in a decrease in net position.	(2,866,619)
4 Included in the items related to debt is the recognition of the District' proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a deferred resource outflow in the amount of \$710,467, a deferred resource inflow in the amount of \$1,944,805, and a net OPEB liability in the amount of \$6,150,085. This resulted in a decrease in net position.	(7,384,423)
5 Depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(1,839,341)
6 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.	3,793,942
19 Net Position of Governmental Activities	\$ 76,301,347

EXHIBIT C-4

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED AUGUST 31, 2019

Total Net Change in Fund Balances - Governmental Funds	\$	4,647,382
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the capital outlays and debt principal payments is to increase net position.		5,515,317
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.		(1,839,341)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to decrease net position.		(421,650)
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$334,647. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling \$241,893. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased the change in net position by \$362,862. The net result is a decrease in the change in net position.	,	(270,108)
GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$90,460. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net OPEB liability. This caused a decrease in the change in net position totaling \$146,417. Finally, the proportionate share of the TRS OPEB expense on the plan as a whole had to be recorded. The net OPEB expense decreased the change in net position by \$92,668. The net result is a decrease in the change in net position.		(148,625)
Change in Net Position of Governmental Activities	\$	7,482,975

KARNES CITY INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS AT AND FOR THE YEAR ENDED AUGUST 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Karnes City Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in GASB Statement No. 76, and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB). The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

The District applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due froms on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are nonoperating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are nonoperating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors some times require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

Agency Funds utilize the accrual basis of accounting but do not have a measurement focus as they report only assets and liabilities.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. The General Fund. The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

- 2. Special Revenue Funds. The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.
- Debt Service Fund The debt service fund is used to account for revenues collected to pay interest and related costs and to retire long-term debt.
- 4. Capital Projects Fund The capital projects fund accounts for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities and procurement of equipment necessary for providing educational programs for all students within the District.

Fiduciary Funds:

5. Agency Funds. The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is the "Karnes City Student Activity Fund."

E. OTHER ACCOUNTING POLICIES

- For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
- 2. The District reports inventories of supplies at weighted average cost including consumable maintenance, instructional, office, athletic, and transportation items. Supplies are recorded as expenditures when they are consumed. Inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as inventory and unearned revenue when received. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.
- 3. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.
 - In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.
- 4. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the district. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

5. Capital assets, which include land, buildings, furniture and equipment are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

Asset:	Years
Buildings	39-50
Building Improvements	39
Vehicles	5-10
Equipment	7
Technology Equipment	3

- 6. In the fund financial statements, governmental funds report fund balance as nonspendable if the amounts cannot be spent because they are either not in spendable form or are legally or contractually required to remain intact. Restrictions of fund balance are for amounts that are restricted to specific purposes by an external entity (creditors, grantors, governmental regulations) or the restriction is imposed by law through constitutional provision or enabling legislation. Commitments of fund balance represent amounts that can only be used for specific purposes pursuant to constraints imposed by the District's board. Assignments of fund balance are amounts set aside by the District's superintendent or his designee with the intent they be used for specific purposes.
- 7. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.
- 8. In general governments are required to report investments at fair value. These methods are disclosed in section III.A. below.
- 9. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. Items reported as deferred outflows of resources are as follows:

Deferred charges for bond refunding	\$ 223,606
Deferred charges related to TRS retirement	\$ 2,552,084
Deferred charges related to TRS OPEB	\$ 710,467

10. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Uncollected property taxes which are assumed collectible are reported in this category on the balance sheet for governmental funds. They are not reported in this category on the government wide statement of net position. Items reported as deferred inflows of resources are as follows:

Deferred charges related to TRS retirement \$ 460,477 Deferred charges related to TRS OPEB \$ 1,944,805

11. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a Statewide data base for policy development and funding plans.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund and the Food Service Fund (which is included in the Special Revenue Funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 in RSI and the other reports are in Exhibits J4 and J5.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

- 1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
- 3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. (However, none of these were significant.)
- 4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

During the year, the District had the following functional categories that exceeded its final amended budget by more than \$2,500 in the General and Debt Service funds:

Functional Category	Amount Over Budget	Explanation
0011 - Instruction	\$ 222,320	TRS on-behalf expenditures not fully budgeted.
0023 - School leadership	\$ 12,047	TRS on-behalf expenditures not fully budgeted.
0031 - Guidance, counseling and evaluation services	\$ 4,810	TRS on-behalf expenditures not fully budgeted.
0033 - Health services	\$ 7,530	TRS on-behalf expenditures not fully budgeted.
0035 - Food services	\$ 16,203	TRS on-behalf expenditures not fully budgeted.
0041 - General administration	\$ 346,755	Failure to budget IRS payroll tax penalties paid.
8949 - Other (uses)	\$1,331,815	Failure to properly budget debt defeasance.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

District Policies and Legal and Contractual Provisions Governing Deposits

<u>Custodial Credit Risk for Deposits</u>. State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the district complies with this law, it has no custodial credit risk for deposits. The District was not exposed to custodial credit risk.

<u>Foreign Currency Risk.</u> The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by having no deposits denominated in a foreign currency. Therefore, the District was not exposed to foreign currency risk.

As of August 31, 2019, the following are the District's cash, cash equivalents and investments (including student activity account balances) with respective maturities and credit rating:

Type of Deposit]	Fair Value	Percent	Maturity < 1 Yr	Maturity 1-3 Yrs	Maturity > 3 Yrs	Credit Rating
Cash:							
Money market and FDIC insured accounts	\$	7,745,242	79.5%	\$ 7,745,242			N/A
Certificates of deposit		2,000,000	20.5%	2,000,000			N/A
Total Cash and Cash Equivalents	\$	9,745,242	100.0%	\$ 9,745,242			

Investments

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The *Public Funds Investment Act*(Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provisions governing investments for the District are specified below:

<u>Credit Risk.</u> To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments in commercial paper, corporate bonds and mutual bond funds to the top ratings issued by nationally recognized statistical rating organizations (NRSROs). As of August 31, 2019, all of the District's investments were rated AA or higher by Standard & Poor's and/or Moody's rating agencies. Therefore, the District was not exposed to credit risk.

<u>Custodial Credit Risk for Investments.</u> To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the district and hand them over to the District or its designated agent. This includes securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent. The District was not exposed to custodial credit risk.

<u>Concentration of Credit Risk.</u> To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District limits investments to less than 5% of its total investments. The District further limits investments in a single issuer when they would cause investment risks to be significantly greater in the governmental and business-type activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government. Usually this limitation is 20%. The District was not exposed to concentration of credit risk.

<u>Interest Rate Risk.</u> To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires a review of its investment portfolio at least annually to determine whether market conditions pose an inherent risk of future interest rates either rising or falling which could significantly affect investment performance. Due to the liquidity of investments, the District was not significantly exposed to interest rate risk.

<u>Foreign Currency Risk for Investments.</u> The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by not investing in any foreign currency. Therefore, the District was not exposed to foreign currency risk.

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles, the hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurement in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurement requires judgement and considers factors specific to each asset or liability.

1	Fair Value Measurements Using							
Investments by Fair Value Level:	Balance at 08/31/19	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)				
Debt Securities:								
U.S. Treasury securities	\$ 35,956,901	\$ 35,956,901						
Municipal bonds	5,258,060	5,258,060						
Total Debt Securities	41,214,961	41,214,961						
Intangible Investments:								
Mineral interests	2,425,502			2,425,502				
Total Intangible Investments	2,425,502			2,425,502				
Total Investments by Fair Value Level	\$ 43,640,463	\$ 41,214,961		\$ 3,131,134				

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy Allowances for uncollectible tax receivables within the General Fund is based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

The composition of interfund balances as of August 31, 2019 is as follows:

Fund	R	eceivable	Payable	Purpose	Current?
General fund	\$	639,355		Temporary advances	Yes
Nonmajor governmental funds			639,355	Temporary advances	Yes
Total	\$	639,355	\$ 639,355	•	

Interfund transfers for the year ended August 31, 2019 consisted of the following individual amounts:

Fund	Tra	nsfers In	Tran	sfers Out	Purpose
Nonmajor governmental funds	\$	32,511			Food service deficit transfer.
General fund				32,511	Food service deficit transfer.
Total	\$	32,511	\$	32,511	

E. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Receivables at August 31, 2019 were as follows:

	Property Taxes (net)	Go	Other overnment	Re	Other ceivables	R	Total eceivables
Governmental Activities:							
General fund	\$ 2,220,893			\$	161,446	\$	2,382,339
Nonmajor governmental funds	261,721		676,065				937,786
Total Governmental Activities	\$ 2,482,614	\$	676,065	\$	161,446	\$	3,320,125

Payables at August 31, 2019 were as follows:

	Accounts		Accounts Salar Ber		Other Governments		Total Payables	
Governmental Activities:								
General fund	\$	236,655	\$	629,995	\$	153,035	\$	1,019,685
Nonmajor governmental funds		45,703		29,842				75,545
Total Governmental Activities	\$	282,358	\$	659,837	\$	153,035	\$	1,095,230

F. CAPITAL ASSET ACTIVITY

Capital asset activity for the year ended August 31, 2019, was as follows:

	Balance	A 110.0	D : 1	Balance
	8/31/18	Additions	Disposals	8/31/19
Governmental activities:				
Land and improvements	\$231,687			\$231,687
Buildings and improvements	41,148,434	13,796,069		54,944,503
Furniture and equipment	4,584,742	183,329		4,768,071

Infrastructure	2,518,001			2,518,001
Construction in progress	12,586,346	(12,570,186)		16,160
Totals	61,110,746	1,409,212		62,519,958
Less accumulated depreciation for:				
Buildings and improvements	4,073,698	1,178,433		5,252,131
Furniture and equipment	2,534,982	537,889		3,072,871
Library books	4,154	4,154		8,308
Infrastructure	422,281	118,865		541,146
Total accumulated depreciation	7,035,115	1,839,341		8,874,456
Governmental activities capital assets, net	\$ 54,075,631	\$ (430,129)		\$ 53,645,502

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:

Instruction	\$ 1,041,189
Instructional resources and media services	43,310
Curriculum and staff development	3,875
Instructional leadership	60,722
School leadership	86,806
Guidance, counseling and evaluation services	37,027
Health services	14,897
Student (pupil) transportation	122,340
Food services	80,557
Extracurricular activities	60,720
General administration	108,662
Facilities maintenance and operations	169,813
Data processing services	6,410
Community services	3,013
Total depreciation expense - governmental activities	\$ 1,839,341

G. BONDS AND LONG-TERM NOTES PAYABLE

Bonded indebtedness of the District is reflected in the General Long-Term Debt Account Group. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund.

A summary of changes in general long-term debt for the year ended August 31, 2019 is as follows:

Description	Int Rate	Amounts Original Issue	Amounts Outstanding 8/31/18	Additions	Retired	Defeased	Amounts Outstanding 8/31/19
Bonds Payable:			0.00.00				0,02,02
UL school building bonds, series 2011	0.4% - 4.0%	\$ 3,449,999	\$ 1,825,000		\$ 215,000	\$ 1,310,000	\$ 300,000
UL school building bonds, series 2014	1.0% - 2.0%	14,255,000	1,485,000		735,000		750,000

Total Debt			\$ 27,500,536	\$ 53,894	\$ 3,621,406	\$ 1,353,814	\$ 22,579,210

Karnes City ISD Unlimited Tax School Building Bonds, Series 2011 -

The bonds were issued on August 1, 2011 for the purpose of construction and renovation of facilities and were issued in accordance with Texas law. The original issue was for \$3,449,999, maturing in various amounts, with interest ranging from 0.4% to 4.0%, and maturing on August 15, 2026. Bonds due on or after August 15, 2021 are callable at par on August 15, 2020 or any principal maturity date thereafter. The bonds were issued at a net premium of \$110,613 which is being amortized over the life of the bonds. On August 22, 2019, a portion of the bonds were defeased. Total amounts defeased totaled \$1,310,000 with original maturities of 2021 thru 2026.

Karnes City ISD Unlimited Tax School Building Bonds, Series 2014 -

The bonds were issued on September 3, 2014 for the purpose of construction and renovation of facilities and were issued in accordance with Texas law. The original issue was for \$14,255,000, maturing in various amounts, with interest ranging from 1.0% to 5.0%, and maturing on August 15, 2020. Bonds due on or after August 15, 2021 are callable at par on August 15, 2016 or any principal maturity date thereafter. The bonds were issued at a net premium of \$368,163 which is being amortized over the life of the bonds. On March 30, 2017, a portion of the bonds were defeased with the issuance of refunding debt. Total amounts refunded totaled \$3,280,000 with original maturities of 2021 thru 2024.

Karnes City ISD Unlimited Tax School Building Bonds, Series 2015 -

The bonds were issued on August 25, 2015 for the purpose of construction and renovation of facilities and were issued in accordance with Texas law. The original issue was for \$13,915,000, maturing in various amounts, with interest ranging from 2.0 to 5.0%, and maturing on August 15, 2020. Bonds due on or after August 15, 2021 are callable at par on August 15, 2017 or any principal maturity date thereafter. The bonds were issued at a net premium of \$694,694 which is being amortized over the life of the bonds. On March 30, 2017, a portion of the bonds were defeased with the issuance of refunding debt. Total amounts refunded totaled \$4,515,000 with original maturities of 2021 thru 2024.

Karnes City ISD Unlimited Tax School Building Bonds, Series 2016 -

The bonds were issued on September 21, 2016 for the purpose of construction and renovation of facilities and were issued in accordance with Texas law. The original issue was for \$14,065,000, maturing in various amounts, with interest ranging from 2.0 to 3.5%, and maturing on August 15, 2026. Bonds due on or after August 15, 2021 are callable at par on August 15, 2018 or any principal maturity date thereafter. The bonds were issued at a net premium of \$633,142 which is being amortized over the life of the bonds. On June 28, 2018, a portion of the bonds were defeased with the issuance of refunding debt. Total amounts refunded totaled \$10,385,000 with original maturities of 2021 thru 2026.

Karnes City ISD Unlimited Tax Refunding Bonds, Series 2017 -

On March 30, 2017, the District issued \$7,794,997 in unlimited tax refunding bonds to provide the resources to place in an escrow account for the purpose of generating resources for future debt service payments of \$7,795,000 of unlimited tax school tax refunding bonds originally issued in 2014 and 2015. Interest rates on the debt range from 1.42% - 2.39% and mature on August 15, 2024. As a result, the refunded bonds are considered defeased and the liability has been removed from the government-wide financial statements. The reacquisition price exceeded the net carrying amount of the refunded debt by \$132,523. This amount is being amortized over the remaining life of the refunded debt. This advance refunding was undertaken to reduce total debt service payments over the life of the new issue versus the refunded issue by \$1,106,631. The bonds were issued at a net premium of \$211,239 which is being amortized over the life of the bonds. The economic gain on the refunding represented savings of \$1,106,631 in cash and \$1,042,502 in present value.

Karnes City ISD Unlimited Tax School Building Bonds, Series 2017 -

The bonds were issued on September 12, 2017 for the purpose of construction and renovation of facilities and were issued in accordance with Texas law. The original issue was for \$1,500,000, maturing in various amounts, with interest rates of 1.25%, and maturing on August 15, 2019. The bonds are callable at par on any date with at least 30-days notice of intent to call any principal prior to the maturity date of the bonds. The bonds were issued at par.

Payment on the bonds due on August 15, 2019 were not paid until September 13,2019. Amounts not paid timely and in technical default were \$684,000 in principal and \$4,275 in interest totaling \$688,275.

Karnes City ISD Unlimited Tax Refunding Bonds, Series 2018 -

On June 28, 2018, the District issued \$9,815,000 in unlimited tax refunding bonds to provide the resources to place in an escrow account for the purpose of generating resources for future debt service payments of \$10,385,000 of unlimited tax school tax refunding bonds originally issued in 2016. Interest rates on the debt are 3.50% and mature on August 15, 2021 thru August 15, 2026. As a result, the refunded bonds are considered defeased and the liability has been removed from the government-wide financial statements. The reacquisition price exceeded the net carrying amount of the refunded debt by \$157,060. This amount is being amortized over the remaining life of the refunded debt. This advance refunding was undertaken to reduce total debt service payments over the life of the new issue versus the refunded issue by \$527,150. The bonds were issued at a net premium of \$769,183 which is being amortized over the life of the bonds. The economic gain on the refunding represented savings of \$527,150 in cash and \$464,803 in present value.

H. DEBT SERVICE REQUIREMENTS - BONDS

Future debt service requirements are as follows:

Year Ended						Total
August 31,	Principal		Interest		Requirements	
2020	\$	3,524,070	\$	701,300	\$	4,225,370
2021		2,798,000		534,344		3,332,344
2022		2,776,000		468,651		3,244,651
2023		2,838,000		401,414		3,239,414
2024		2,913,000		329,991		3,242,991
2025-26		6,370,000		384,600		6,754,600
Totals	\$	21,219,070	\$	2,820,300	\$	24,039,370

Future debt service requirements do not follow published information for the 2020 fiscal year because the District failed to make one required bond payment due on August 15, 2019 totaling \$684,000 principal and \$4,275 interest which was paid on September 13, 2019. Therefore the future debt service requirements for the 2020 fiscal year reflect the delinquent bond payment due on August 15, 2019 but paid during the 2020 fiscal year.

I. DEFINED BENEFIT PENSION PLAN

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Net Pension Liability	<u>Total</u>		
Total Pension Liability	\$ 209,611,328,793		
Less: Plan Fiduciary Net Position	(154,568,901,833)		
Net Pension Liability	\$ 55,042,426,960		

73.74%

Net Position as a percentage of Total Pension Liability

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grand fathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2018 and 2019.

Contribution Rates				
	2018	2019		
Member	7.7%	7.7%		
Non-Employer Contributing Entity (State)	6.8%	6.8%		
Employers	6.8%	6.8%		

Current fiscal year District contributions	\$ 334,647
Current fiscal year Member contributions	\$ 734,777
2018 measurement year NECE contributions	\$ 404,072

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees, and 100% of the state contribution rate for all other employees.

Actuarial Assumptions. The total pension liability in the August 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2017 rolled forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Single Discount Rate	6.907%
Long-term expected Investment Rate of Return	7.25%
Inflation	2.3%
Salary Increases	3.05% to 9.05% including inflation
Benefit Changes During the Year	None
Ad hoc Post-Employment Benefit Changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate. The single discount rate used to measure the total pension liability was 6.907%. This was a change in the discount rate from the previous year of (1.093%). The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2018 are summarized below:

Asset Class	Target Allocation	Real Return Geometric Basis	Long-Term Expected Portfolio Real Rate of Return*
Global Equity			
U.S.	18%	5.70%	1.04%
Non-U.S. Developed	13%	6.90%	0.90%
Emerging Markets	9%	8.95%	0.80%
Directional Hedge Funds	4%	3.53%	0.14%
Private Equity	13%	10.18%	1.32%
Stable Value			
U.S. Treasuries	11%	1.11%	0.12%
Absolute Return	0%	0.00%	0.00%
Hedge Funds (Stable Value)	4%	3.09%	0.12%
Cash	1%	(0.30)%	0.00%
Real Return			
Global Inflation Linked Bonds	3%	0.70%	0.02%
Real Assets	16%	5.21%	0.73%
Energy and Natural Resources	3%	7.48%	0.37%
Commodities	0%	0.00%	0.00%
Risk Parity			
Risk Parity	5%	3.70%	0.18%
Inflation Expectations			2.30%
Alpha			(0.79)%
Total	100%		7.25%

^{*} The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2018 Net Pension Liability.

	1% Decrease in Discount Rate (5.907%)	Discount Rate (6.907%)	1% Increase in Discount Rate (7.907%)
District's proportionate share of the net pension liability	\$ 7,483,152	\$ 4,958,226	\$ 2,914,149

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2019, the District reported a liability of \$4,958,226 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District.

The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:.

District's proportionate share of the collective net pension liability	\$ 4,958,226
State's proportionate share that is associated with the District	6,606,306
Total	\$ 11,564,532

The net pension liability was measured as of August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the District's proportion of the collective net pension liability was 0.0090080080% which was a decrease of 0.0002397640% from its proportion measured as of August 31, 2017.

Changes Since the Prior Actuarial Valuation. Changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period are as follows:

- 1. The total pension liability as of August 31, 2018 was developed using the roll-forward method of the August 31, 2017 valuation.
- 2. Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- 3. Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- 4. The discount rate changed from 8.0 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- 5. The long term assumed rate of return changed from 8.0 to 7.25 percent.
- 6. The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2019, the District recognized pension expense of \$1,258,603 and revenue of \$653,848 for support provided by the Sate in the Government-Wide Statement of Activities.

At August 31, 2019, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred		Deferred
	O	utflows of	I	inflows of
	F	Resources	I	Resources
Difference between expected and actual economic experiences	\$	30,906	\$	121,655
Changes in actuarial assumptions		1,787,679		55,865
Differences between projected and actual investment earnings				94,079
Changes in proportion and differences between the District's				
contributions and the proportionate share of contributions		398,852		188,878
Total as of August 31, 2018 measurement date	\$	2,217,437	\$	460,477
Contributions paid to TRS subsequent to the measurement date		334,647		
Total as of August 31, 2019 fiscal year end	\$	2,552,084	\$	460,477

The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal year ended August 31,	Amount	
2020	\$ 493,145	
2021	\$ 295,163	
2022	\$ 239,342	
2023	\$ 276,254	
2024	\$ 265,362	
Thereafter	\$ 187,694	

J. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined benefit Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX,

http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512)542-6592.

Components of the net OPEB liability of the TRS-Care plan as of August 31, 2018 are as follows:

Net OPEB Liability:	<u>Total</u>
Total OPEB liability	\$ 50,729,490,103
Less: plan fiduciary net position	(798,574,633)
Net OPEB liability	\$ 49,930,915,470
Net position as a percentage of total OPEB liability	1.57%

Benefits Provided. TRS-Care provides a basic health insurance coverage at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may pay premiums to participate in the high-deductible health plans. Eligible Medicare retirees and dependents may pay premiums to participate in the Medicare Advantage health plans. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare Parts A&B coverage, with 20 to 29 years of service for the standard plan with Medicare Part A and Part B.

TRS-Care Plan Premium Rates Effective September 1, 2016 - December 31, 2017					
TRS-Care 1 TRS-Care 2 TRS-Care					
Retiree or surviving spouse	\$ 0	\$ 70	\$ 100		
Retiree and spouse	20	175	255		
Retiree or surviving spouse and children	41	132	182		
Retiree and family	61	237	337		
Surviving children only	28	62	82		

The new premium rates for retirees with Medicare Part A and Part B became effective January 1, 2018 and are reflected in the following table.

TRS-Care Plan Premium Rates Effective January 1, 2018 - December 31, 2018			
Medicare Non-Medic			
Retiree or surviving spouse	\$	135	\$ 200
Retiree and spouse		529	689
Retiree or surviving spouse and children		468	408
Retiree and family		1,020	999

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for the plan is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

Contribution Rates				
	2018	2019		
Active employee	0.65%	0.65%		
Non-employer contributing entity (State)	1.00%	1.25%		
Employers	0.55%	0.75%		
Federal/private funding remitted by employers	1.00%	1.25%		

Current fiscal year District contributions	\$ 90,460
Current fiscal year member contributions	\$ 62,026
2018 measurement year NECE contributions	\$ 91,970

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS-Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$15.6 million in fiscal year 2017 and \$212.0 million in fiscal year 2018.

Actuarial Assumptions. The total OPEB liability in the August 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including mortality, and most of the economic assumptions are identical to those which were adopted by the Board in 2015 and are based on the 2014 actuarial experience study of TRS.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females with full generational mortality using Scale BB. The post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale.

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2018 TRS pension actuarial valuation:

Rates of Mortality General Inflation
Rates of Retirement Wage Inflation
Rates of Termination Expected Payroll Growth
Rates of Disability Incidence

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2017 rolled forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Discount Rate *	3.69% *
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected Salary Increases **	3.50% to 9.50% **
Healthcare Trend Rates ***	4.50% to 12.00% ***
Election Rates	Normal Retirement: 70% participation prior to age 65 and 75% participation after age 65
Ad hoc post-employment benefit changes	None

^{*} Source: Fixed Income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2018.

Discount Rate. A single discount rate of 3.69% was used to measure the total OPEB liability. There was a change of 0.27% in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability. The source of the municipal bond rate was fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of August 31, 2018.

Sensitivity of the Net OPEB Liability:

Discount Rate Sensitivity Analysis - The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used in measuring the net OPEB liability.

	1% Decrease in	Current Single	1% Increase in
	Discount Rate	Discount Rate	Discount Rate
	(2.69%)	(3.69%)	(4.69%)
District's proportionate share of net OPEB liability	\$ 7,320,715	\$ 6,150,085	\$ 5,224,042

Healthcare Cost Trend Rates Sensitivity Analysis - The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate:

^{**} Includes inflation at 2.50%

^{***} Initial trend rates are 7.00% for non-Medicare retirees; 10.00% for Medicare retirees and 12.00% for prescriptions for all retirees. Initial trend rates decrease to an ultimate trend rate of 4.50% over a period of 10 years.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's proportionate share of net OPEB liability	\$ 5,107,746	\$ 6,150,085	\$ 7,522,869

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2019, the District reported a liability of \$6,150,085 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 6,150,085
State's proportionate share that is associated with the District	6,666,167
Total	\$ 12,816,252

The net OPEB liability was measured as of August 31, 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the District's proportion of the collective net OPEB liability was 0.0123171892% which was an increase of 0.0003466437% from its proportion measured as of August 31, 2017.

Changes Since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- 1. The total OPEB liability as of August 31, 2018 was developed using the roll-forward method of the August 31, 2017 valuation.
- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the total OPEB liability.
- 3. The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the total OPEB liability.
- 4. Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the total OPEB liability.
- 5. The discount rate changed from 3.42% as of August 31, 2017 to 3.69% as of August 31, 2018. This change lowered total OPEB liability.

In this valuation the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annual by 2.50%.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis-point addition to the long term trend rate assumption.

Future actuarial measurements may differ significantly from the current measurements due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements; and changes in plan provision or applicable law.

Changes of benefit terms that affected measurement of the total OPEB liability during the measurement period are listed below:

The 85th Legislature, Regular Session, passed the following statutory changes in House Bill 3976 which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventive drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage plan and Medicare presription drug plan for all Medicare-eligible participants.
- Allowed the System to provide other appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period.
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums.

For the year ended August 31, 2019, the District recognized OPEB expense of \$481,560 and revenue of \$242,475 for support provided by the State.

At August 31, 2019, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflow of Resources		Deferred Inflow of Resources	
Differences between expected and actual actuarial experience	\$	326,362	\$	97,057
Changes in actuarial assumptions		102,628		1,847,748
Differences between projected and actual investment earnings		1,076		
Changes in proportion and difference between the District's contributions and the proportionate share of contributions		189,941		
Total as of August 31, 2018 measurement date	\$	620,007	\$	1,944,805
Contributions paid to TRS subsequent to the measurement date		90,460		
Total as of August 31, 2019 fiscal year end	\$	710,467	\$	1,944,805

The net amounts of the District's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended August 31,	Amount
2020	\$ (218,422)
2021	\$ (218,422)
2022	\$ (218,422)
2023	\$ (218,625)
2024	\$ (218,743)
Thereafter	\$ (232,164)

K. HEALTH CARE COVERAGE - RETIREES AND ACTIVE EMPLOYEES

Retiree Health Care Coverage

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit post-employment health care plan administered by the Teacher Retirement System of Texas. TRS-Care provides health cae coverage for certain persons (and their dependents) who retire under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Texas Insurance Code Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street,

Austin, Texas 78701, by phoning the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet Website, www.trs.state.tx.us under the TRS Publications heading.

Funding Policy. Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The Contribution Rate for the State was 1.00% for 2017 and 1.25% for 2018 and 2019. The contribution rate for the district was 0.55% for 2017 and 0.75% for 2018 and 2019. The contribution rate for active employees was 0.65% of the district payroll for each of the three years. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For staff members funded by federal programs, the federal programs are required to contribution 1.0% for 2017 and 1.25% for 2018 and 2019.

Contributions. Contributions made by the State on behalf of the District are recorded in the governmental funds financial statements as both revenue and expenditures. State contributions to TRS made on behalf to the District's employees as well as the District's required contributions and federal grant program contributions for the years ended August 31, 2019, 2018 and 2017 are as follows:

Contribution Rates and Contribution Amounts									
	Me	ember		Š	State		Schoo	ol Distr	ict
Year	Rate	A	Amount	Rate	1	Amount	Rate	A	Amount
2019	0.65%	\$	62,026	1.25%	\$	119,282	0.75%	\$	71,570
2018	0.65%	\$	57,455	1.25%	\$	110,490	0.75%	\$	66,296
2017	0.65%	\$	55,386	1.00%	\$	85,211	0.55%	\$	46,868

Medicare Part D. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the TRS-Care to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. On-behalf payments recognized as equal revenues and expenditures by the District for the years ended August 31, 2019, 2018 and 2017 were \$34,239, \$26,662 and \$26,072, respectively.

Active Employee Health Care Coverage

Plan Description. The District participates in TRS Active Care sponsored by the Teacher Retirement System of Texas and administered through Aetna and Caremark (pharmacy). TRS-Active Care provides health care coverage to employees (and their dependents) of participating public education entities. Optional life and long-term care insurance are also provided to active members and retirees. Authority for the plan can be found in the Texas Insurance Code, Title 8, Subtitle H, Chapter 1579 and in the Texas Administrative Code, Title 34, Part 3, Chapter 41. The plan began operations on September 1, 2002. This is a premium-based plan. Payments are made on a monthly basis for all covered employees.

L. CHANGES IN LONG-TERM LIABILITIES

Long-term activity for the year ended August 31, 2019, was as follows:

	Beginning	Retirements/		etirements/	Ending	Due Within		
	Balance	Additions	Defeasance		Defeasance		Balance	One Year
Bonds Payable	\$ 25,304,623		\$	4,085,553 \$	21,219,070 \$	3,524,070		
Bond Premium	2,122,805			815,221	1,307,584	N/A		
Interest Accretion	73,108	53,894		74,446	52,556	N/A

M. UNAVAILABLE/UNEARNED REVENUE

Unavailable and unearned revenue at year-end consisted of the following:

	Unavailable	Unexpended
	Revenue	School Climate
	(levied but	Transformation
	uncollected	Grant
Fund	property taxes)	Receipts
General fund	\$ 2,220,893	
Debt service fund	261,721	
Special revenue fund		109,893
Total	\$ 2,482,614	\$ 109,893

N. DUE FROM STATE AND FEDERAL AGENCIES

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2019, are summarized below. They are reported on the combined financial statements as Due from Other Governments.

	State			Federal		
Fund	Entitlements		Grants		Total	
Special revenue funds	\$	9,825	\$	666,240	\$	676,065

O. REVENUE FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	Nonmajor						
	Governmental						
Description	General Fund	Funds	Total				
Property taxes	\$ 46,763,920 \$	5,698,510 \$	52,462,430				
Penalties, interest and other tax related income	156,079	19,349	175,428				
Food sales		138,469	138,469				
Investment income	1,886,765		1,886,765				
Extracurricular student activities	62,673		62,673				
Oil and gas royalty revenue	582,383		582,383				
Other income	90,372		90,372				
Total	\$ 49,542,192 \$	5,856,328 \$	55,398,520				

P. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities related to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

O. JOINT VENTURE SHARED SERVICE ARRANGEMENTS

The District participates in a shared services arrangement for Special Education services with the Goliad Special Education Co-op. The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Goliad ISD, nor does the district have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the shared services arrangement.

The District also participates in various shared service arrangements with the Education Service Center Region 3. The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The Education Service Center Region 3 is the fiscal agent manager and is responsible for all financial activities of the shared service arrangement.

R. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the fiscal year 2019, the District purchased commercial insurance to cover general liabilities. Additional insurance information by coverage type follows.

Property Casualty and Workers Compensation Program

The District participated in the Regional Pool Alliance with coverage for property insurance and Texas Association of School Boards Risk Management Fund with coverage in auto liability, auto physical damage, general liability, and legal liability. The Funds were created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Funds execute Interlocal Agreements that define the responsibilities of the parties. There were no significant reductions in coverage in the past fiscal year and there were not settlements exceeding insurance coverage for each of the past three years.

The Funds purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its auto, liability and property programs. The terms and limits of the stop-loss program vary by line coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2019, the Fund anticipates the District has not additional liability beyond the contractual obligations for payment of contributions.

Unemployment Compensation

During the year ended August 31, 2019, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the "Fund"). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's unemployment compensation program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute interlocal agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop-loss coverage for the unemployment compensation pool. For the year ended August 31, 2019, the Fund anticipates that the District has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's board of trustees in February of the following year. The Fund's audited financial statements as of August 31, 2019, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

S. GENERAL FUND FEDERAL SOURCE REVENUES

Revenues from federal sources, which are reported in the General Fund, consist of:

Program or Service	CFDA	Amount
SHARS	N/A	\$ 344,159
Indirect costs - Innovative Approaches to Literacy	84.215	53,102
Total		\$ 397,261

T. SUBSEQUENT EVENTS

Management has evaluated subsequent events through February 10, 2020; the date which the financial statements were available for distribution. There were none noted.

KARNES CITY INDEPENDENT SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2019

Budget

The official budget was prepared for adoption for all Governmental Fund Types. The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data.:

- a. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- c. Prior to the beginning of the fiscal year, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level.

Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

Defined Benefit Pension Plan

Changes of benefit terms.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions.

See Footnote I page 31 for changes in assumptions that affected measurement of the total pension liability during the measurement period.

Other Post-Employment Benefit Plan

Changes of benefit terms.

See Footnote J page 35 for changes in benefit terms that affected measurement of the total OPEB liability during the measurement period.

Changes of assumptions.

See Footnote J page 35 for changes in assumptions that affected measurement of the total OPEB liability during the measurement period.

OVERALL COMPLIANCE AND INTERNAL CONTROLS SECTION

P. O. Box 163 Eastland, Texas 76448 (325)669-9795 cgulley@txol.net

Independent Auditor's Report

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

Board of Trustees Karnes City Independent School District P.O. Box 38 Karnes City, Texas 78118

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Karnes City Independent School District (the "District") as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued my report thereon dated February 10, 2020.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I identified one deficiency in internal control that I consider to be a material weakness listed as item 2018-2 on the accompanying Schedule of Findings and Questioned Costs. However, other material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Karnes City Independent School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* listed as items 2018-3, 2018-4, 2018-5 and 2019-1 on the accompanying Schedule of Findings and Questioned Costs.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Cameron L. Gulley
Certified Public Accountant

February 10, 2020

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED AUGUST 31, 2019

Finding	Statement of Condition	Material Weakness?	Questioned Costs
2018-1	Internal Control Over Financial Reporting - Internal Control Policies and Procedures The District had appropriate policies and procedures in place for its business office. However, not all of those policies and procedures were carried out during the year under audit. Particularly, policies and procedures related to the payroll function failed when the District did not properly remit payroll tax deposits for 11 months during the year. Additionally, the required quarterly payroll tax reports were not filed as required by the District's policies and procedures manual. Status: The District began following use of its internal control policies and procedures manual by all District business and administrative personnel. It also outsourced much of the business services function to Education Service Center Region 3 beginning in December, 2018.	Yes	None
2018-2	Internal Control Over Financial Reporting - Inaccurate General Ledger Account Balances During the 2017-18 fiscal year's audit, it was discovered that not all transactions had been recorded properly, bank statements had not been properly reconciled and revenues had not been properly recorded (particularly property tax revenues). The financial condition was so poor that we considered the information unauditable and pulled off the engagement and recommended that a third party be brought in to accurately record the District's transactions for the year. The third party contractor (Education Service Center Region 3) immediately began working with the District to remit the unpaid payroll tax deposits discussed in 2018-1 and to file the delinquent quarterly payroll tax reports. Work to clean up the financial statements began after that and continued for the next few months. However, the financial condition was so poor that the entire year's financial statements had to be reviewed and reconstructed which took a significant amount of time beyond the January 28, 2019 reporting deadline. ESC 3 did as much as it could within the limited time parameter allowed but knew there were going to be a significant number of audit adjustments and to continue would further delay the completion of the audit. Therefore, the audit recommenced in May, 2019 after ESC 3 had reconciled all the bank statements and reconstructed much of the financial records of the District. The audit resulted in 99 proposed adjusting entries of which many were material and significant to the financial statements. The District did not have anyone on staff with the skills, knowledge and experience to understand the full accounting cycle. Therefore, the independence standard relative to the audit could only be overcome with the inclusion of the ESC's skills, knowledge and experience (as the District's contracted business services vendor) over the financial statements onbehalf of the District to understand the magnitude of the inaccurate financial statement repor	Yes	None

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED AUGUST 31, 2019

Finding	Statement of Condition	Material Weakness?	Questioned Costs
2018-3	8-3 Compliance - Failure to Make Budget Amendments		None
	The District did not make any budget amendments which resulted in many negative budget variances in the General and Debt Service funds.		
	Status: There were again numerous negative budget variance for both the general and debt service funds for the current year under audit. See continuation finding 2018-3 on the accompanying Schedule of Findings and Questioned Costs.		
2018-4	Compliance - Failure to Make Payroll Tax Deposits and File Related Payroll Reports Timely	No	None
	As noted in 2018-1, the District failed to make payroll tax deposits for any payroll processing period except for September, 2017. Total payroll deposits not remitted totaled \$832,255. The District also failed to file any quarterly 941 payroll tax report for the year under audit.		
	Status: In December, 2018 all unpaid payroll tax deposits from 2017-18 as well as for September thru November, 2018 in 2018-19 were paid. Additionally, all unfiled quarterly 941 reports were prepared and remitted. Since that time, all payroll tax deposits and quarterly payroll tax reports have been deposited and reported timely. See continuation finding 2018-4 on the accompanying Schedule of Findings and Questioned Costs for the carryover issue thru November, 2018.		
2018-5	Compliance - Failure to Submit Annual Financial Report Timely	No	None
	As a result of the issues identified in items 2018-1 thru 2018-4, the District's annual financial report was not completed until July, 2019.		
	Status: Due to the carryover issues of 2018-1 thru 2018-4 into the current year, the District's annual financial report was not completed until February, 2020. See continuation finding 2018-5 on the accompanying Schedule of Findings and Questioned Costs.		
2018-6	Compliance - Failure to Submit Annual Financial Report Timely to Single Audit Clearinghouse	Yes	None
	As a result of the issues identified in items 2018-1 thru 2018-4, the District's annual financial report was not completed until July, 2019.		
	Status: The 2018-19 annual financial report was completed in February, 2020 and filed with the Single Audit Clearinghouse timely.		

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED AUGUST 31, 2019

Finding	Statement of Condition	Material Weakness?	Questioned Costs
2018-7	Compliance - Failure to Properly Document Free and Reduced Lunch Application Approval or Verification	Yes	Unknown
	None of the Child Nutrition Program student applications tested had any approval signature or other authoritative approval notation nor was there any approval signature or other authoritative approval notation on any subsequently verified applications.		
	Status: Proper approval and authorization signatures were included on current year student applications for the current year under audit.		

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED AUGUST 31, 2019

I. Summary of Auditor's Results

A. Financial Statements

Type of auditor's report issued:

Unmodified.

Internal control over financial reporting:

Material weakness(es) identified? Yes. 2018-2.

Significant deficiency(ies) identified that are not considered

to be material weaknesses?

None reported.

Noncompliance material to financial statements noted?

B. Federal Awards

Type of auditor's report issued on compliance for major programs: Unmodified.

Internal control over compliance of major programs:

Material weakness(es) identified?

Significant deficiency(ies) identified that are not considered

to be material weaknesses?

None reported.

Any audit findings disclosed that are required to be reported in accordance with Title 2 U.S. Code of Federal Regulations

(CFR) Part 200?

Major programs are as follows:

84.287C - 21st Century Community Learning Centers \$1,519,264.

Threshold used to distinguish between type A and type B programs: \$ 750,000.

Auditee qualified as low-risk auditee? Yes.

II. Findings Relating to the Financial Statements which are Required to be Reported in Accordance with Generally Accepted Government Auditing Standards

2018-2	Internal Control Over Fina finding)	ancial Reporting - Inaccurate General Ledger Account Balances (continuation
	Criteria	Proper internal controls over financial reporting should ensure that all financial data is accurate for users and stakeholders of the District's finances.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED AUGUST 31, 2019

Statement of Condition	Beginning in the 2017-18 fiscal year, many transactions were not recorded properly, bank statements were not properly reconciled and revenues were not properly recorded. Those conditions uncovered during that audit period continued during much of the current audit period. At August 31, 2019 bank statements were not fully reconciled and were out of balance by \$192,708 for the general operating bank account and \$159,739 for the payroll clearing bank account. Many coding errors, revenue posting errors and accrual errors were uncovered during the current audit period. The result was 92 proposed audit adjusting entries of which many were material and significant to the financial statements. Conditions relative to improvement began in August, 2019 when the District's business manager was replaced with one with much better comprehension and competency relative to business office procedures and accounting. However, things were still in such disarray that all issues could not be addressed before fiscal year-end.
Questioned Costs	None.
Cause and Effect	The cause was similar to last year where the District's business manager did not have the requisite training or expertise to fully understand the accounting processes and flow of transactions. Issues uncovered in December, 2018 from the previous audit were so far into the current year that the same conditions carried over throughout most of the current audit period. The effect was inaccurate financial and accounting information.
Recommendations	I recommend that all business office personnel continue with training with its local education service center. The District's current general ledger should begin with zero balances rather than rolling forward inaccurate balances from the 2018-19 fiscal year. Then, one-time beginning balance adjustments should be made with accurate beginning-of-year entries from the 2018-19 ending audited balance sheet amounts.

2018-3	State Compliance - Excess Expenditures Over Appropriations (continuation finding)			
	Criteria	In accordance with Texas Education Code §44.006, expenditures from governmental fund types cannot be made without authority of appropriation.		
	Statement of Condition	The District failed to identify functional categories within the General Fund and Debt Service Fund when expenditures exceeded the adopted budget for each fund. Following are functional categories that exceeded the final amended budget:		
		0011 - Instruction \$222,320		
		0023 - School leadership	\$12,047	
		0031 - Guidance, counseling and evaluation services	\$4,810	
		0033 - Health services	\$7,530	
		0035 - Food services	\$16,203	
		0041 - General administration \$346,755 8949 - Other (uses) \$1,331,815 stioned Costs None.		
	Questioned Costs			

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED AUGUST 31, 2019

Cause and Effect	Most of the cause was failure to adequately budget for TRS on-behalf expenditures. The exceptions to that were for general administration which incurred IRS payroll tax penalties which were not budgeted and other (uses) which did not properly budget for debt defeasance costs.
Recommendations	The District should review its business services procedures and analyses of account transactions and balance. Budget amendments should be considered and proposed to the board of trustees whenever it is projected that actual expenditures will be more than currently budgeted before the actual expenditure of funds.

2018-4	State Compliance - Failure to Make Payroll Tax Deposits and File Related Payroll Reports Timely (continuation finding)			
	Criteria	Payroll tax deposits are required to be remitted to the Internal Revenue Service within 3 business days of payroll processing. Federal quarterly 941 reports are required to be filed no later than the end of the month following each calendar quarter.		
	Statement of Condition	The District failed to make payroll tax deposits for the months of September thru November, 2018 until December 10, 2018. It also failed to prepare and remit its 3 rd quarter 2018 941 payroll tax report until that same date.		
	Questioned Costs	None.		
	Cause and Effect	The cause was due to the carryover effect of findings during last year's audit that were uncovered in December, 2018. It was primarily due to lack of training in business office personnel.		
	Recommendations	The District's procedures appear to be operating effectively subsequent to the discovery of the unpaid payroll taxes and payroll tax reports not being filed in December, 2018. Continued diligence should be maintained to ensure that all payroll processing procedures are performed routinely and systematically the same each payroll processing period.		

2018-5	State Compliance - Failure to Submit Annual Financial Report Timely (continuation finding)			
	Criteria	The District's annual financial report is due into the Texas Education Agency no later than January 28th of each year.		
	Statement of Condition As a result of the issues identified in items 2018-2 thru 2018-4, the District's annual financial report was not completed until February, 2020.			
	Questioned Costs None.			
	Cause and Effect	The cause of the annual financial report late filing was due to the failures identified in items 2018-2 thru 2018-4 above. The potential effect could result in loss of state and federal funding to the District.		
	Recommendations	I recommend that a thorough review of the District's internal control structure be made of its business office. Such review should focus on accuracy of information, expediency of meeting deadline reporting requirements, and adequate training requirements of business office personnel.		

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED AUGUST 31, 2019

2019-1	State Compliance - Failure to Make Debt Service Bond Payment Timely			
	Criteria	Districts are required to pay all public debt in accordance with debt service indenture requirements.		
	Statement of Condition	During the year, the District went into actual default on payment of one of its outstanding debt obligations which was due on August 15, 2019 but not paid until September 13, 2019. Payments not made totaled \$688,275 including principal of \$684,000 and interest of \$4,275.		
	Questioned Costs	None.		
	Cause and Effect	The District overlooked payment of the above-mentioned debt and made the bond payment immediately upon discovery of the missed debt service payment.		
	Recommendations The District should maintain a debt service schedule of all its outstan obligations to ensure that payments are made timely.			

III. Findings and Questioned Costs for Federal Awards

None.

CORRECTIVE ACTION PLAN FOR THE YEAR ENDED AUGUST 31, 2019

2018-2	All business office personnel will continue to obtain training with its local education service center. The District's current general ledger began with zero balances and dropped in beginning balances from the ending audited 2018-19 balance sheet account balances.		
	Contact representative:	Vanessa Pawelek, chief financial officer P.O. Box 38 Karnes City, Texas 78118 (830) 780-2321	
	Expected implementation date	: Immediately	
2018-3	Business services personnel w	ate actual and budgetary reports to the board of trustees on a monthly basis. ill make proposed budget amendments based upon those reports and future s are expected to exceed the originally adopted budget.	
	Contact representative:	Vanessa Pawelek, chief financial officer P.O. Box 38 Karnes City, Texas 78118 (830) 780-2321	
	Expected implementation date	: Immediately	
2018-4	All payroll processing procedures are performed routinely and systematically the same each payroll processing period. Secondary review is performed of all functions to ensure proper oversight and monitoring of controls.		
	Contact representative:	Vanessa Pawelek, chief financial officer P.O. Box 38 Karnes City, Texas 78118 (830) 780-2321	
	Expected implementation date: Ongoing		
2018-5	The District has performed such a review through the contracted services agreement it entered into with Education Service Center Region 3. The service center is also providing ongoing training to the business office staff.		
	A thorough review of the District's internal control structure has been made of its business office. The review focused on accuracy of information, expediency of meeting deadline reporting requirements, and adequate training requirements of business office personnel. The review process is dynamic and ongoing.		
	Contact representative:	Vanessa Pawelek, chief financial officer P.O. Box 38 Karnes City, Texas 78118 (830) 780-2321	
	Expected implementation date	: Ongoing	
2019-1		t oversight immediately and have undertaken measures to ensure it does not happen ancial advisors to keep us abreast of current debt service requirements.

Independent Auditor's Report

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees Karnes City Independent School District P. O. Box 38 Karnes City, Texas 78118

Report on Compliance for Each Major Federal Program

I have audited Karnes City Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2019. Karnes City Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of Karnes City Independent School District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as I consider necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of Karnes City Independent School District's compliance.

Opinion on Each Major Federal Program

In my opinion, Karnes City Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2019.

Report on Internal Control Over Compliance

Management of Karnes City Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The accompanying notes are an integral part of this statement.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED AUGUST 31, 2019

- 1. For all federal programs, the District uses the fund types specified in Texas Education Agency's Financial Accountability System Resource Guide. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a special revenue fund.
- 2. The accompanying schedule of expenditures of federal awards included the federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Title 2 U.S. *Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.* Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

SCHOOLS FIRST QUESTIONNAIRE

	Karnes	s City Independent School District	Fiscal Year 2019
•	SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	Yes
	SF4	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
	SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	Yes
	SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
	SF7	Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	No
	SF8	Did the school district not receive an adjusted repayment schedule for more than one fiscal year for an over allocation of Foundation School Program (FSP) funds as a result of a financial hardship?	Yes
	SF10	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end.	52556
	SF11	Net Pension Assets (1920) at fiscal year-end.	
	SF12	Net Pension Liabilities (2540) at fiscal year-end.	4958226
	SF13	Pension Expense (6147) at fiscal year-end.
